

Judge

Learning Outcomes

To successfully undertake the role of judge you will be able to:

- use ICT to analyse performance, and present information and ideas to meet the intended purpose and audience, selecting and using different layouts and technique for different tasks 
- determine success criteria and give some justification for choice. Refine success criteria in light of experience for future occasions 
- judge a section of/a sequence providing and recording a score based on agreed criteria, working to level of accuracy required, checking calculations using different methods to make sure that they make sense. Use formulae to calculate in practical and everyday situations 
- communicate clearly and effectively in away that suits the subject, audience and purpose. Use a wide and subject specific vocabulary
